**Partners:** State University of Library Studies and Information Technologies (SULSIT), Sofia, BULGARIA - coordinator; Hacettepe University, Ankara, TURKEY; University of Zagreb, CROATIA; Université Paris Descartes, FRANCE; University of Szeged, HUNGARY  
**26 students, 18 lecturers, 5 nations**

**IP LibCMASS – to build the multinational librarianship academic network!**

**IP LibCMASS** aims to create interdisciplinary educational program and learning environment in which to acquire the knowledge and skills relating to the contemporary challenges of the management of libraries, museums, archives and information technology centres.

The mission of the project is using a rich methodological toolkit to implement a modern educational process aimed at implementation of interdisciplinary knowledge and skills relevant to the new requirements in the career development of students in library and information and cultural sector and the policy response to higher education and the EU initiative on "New skills for new jobs".

**IP LibCMASS topics:**

- Library, Information and Cultural Heritage Management. Information literacy;
- Preservation and access to cultural heritage. Digital libraries;
- Intellectual Property. Information brokerage;
- Information technologies in libraries, archives and other cultural institutions.
